

# The Spirit Of The Age.

Freedom of Inquiry, and the Power of the People.

BY C. G. EASTMAN.

WOODSTOCK, VERMONT, FRIDAY MORNING, FEBRUARY 26, 1841.

VOL. I. NO. 43.

## The Spirit Of The Age,

IS PUBLISHED WEEKLY,

On Court street—over the Post Office.

T E R M S :

To village subscribers, \$2.00 a year, if payment be made within six months; \$2.50 after six months and within a year, and \$3.00 after the close of the year. To those who subscribe by mail, or at the close of the year, \$2.00; to those who subscribe by mail, or within six months, \$1.75; after six months, and within a year, \$2.00 after the close of the year. \$1.00 in advance for six months. Single copies five cents.

No subscription will be received for less than six months, and no subscription will be accepted after the close of the year. A subscriber from a postmaster, or subscriber, that the paper is not taken from its place of delivery, will not receive attention, while there is anything due it.

No paper will be sent out of the State, unless payment be made in advance; or to the order of any next and unknown subscriber, within the State, unless paid for in advance, and a satisfactory reference made to some known and responsible person.

Those who subscribe for a year, and do not at the time of subscribing order a discontinuance at the end of it, will be considered subscribers until they order the papers to be stopped, and pay all arrears.

## THE LAW OF NEWSPAPERS.

A writer in a newspaper orders it to be discontinued, and it continues to be left at his residence, the presumption is, in the absence of any evidence to the contrary, that it is left by the subscriber's orders, and upon a promise to pay for it.

If a newspaper is left from day to day for a person at his residence, and with his knowledge and consent, though he has not express consent, and if he has reason to believe that it is so left under the belief, though a mistaken one, that he is a subscriber, and under the expectation that he is to pay for it; in that case he will be bound to pay for it, unless he gives notice to the editor to the contrary.

Postmasters, or agents who neglect to give notice of the discontinuance to the distributor, are liable to damages, responsible for a newspaper, from the time such discontinuance was ordered.

The duty to give the notice is imperative upon the postmaster, though the discontinuance is optional with the publisher.

A postmaster may enclose money in a letter to the publisher of a newspaper, to pay the subscription of a third person, and frank the letter, if written by himself.

Advertisements sent in by persons having no account at this office, must be paid for in advance, unless some one known and responsible to the editor, will be responsible to the editor will be responsible for the amount.

Advertisements will be continued until forbidden, and charged accordingly, unless the number of insertions be specified.

All communications must be addressed to C. G. EASTMAN; and to insure attention, in all cases, the name of the author given. No letter is taken from the Post-office on which the postage is not paid.

ADVERTISEMENTS INSERTED, AND JOB WORK EXECUTED, AT THE USUAL RATES.

## REFORMED AMERICAN PRACTICE OF MEDICINE.

TO those who are acquainted with the system the author would inform you that the Reformed practice is now well established in the United States—Dr. B. established a bureau of professors in this science—the branches of medicine, viz. Anatomy, Physiology, Surgery, Pathology, Practice of Phys., and Medical Jurisprudence, which were as scientifically taught and demonstrated as at any medical college in the country.

In this practice, no Calomel or other poisonous mineral is administered; but the Vegetable Kingdom is kept in full view, and the effects of the properties of minerals. About half a grain of Calomel was obtained from the Legislature of Ohio, which soon went into successful operation, at Worthington in that state, and still flourishes almost without a parallel in the history of any institution. This practice is nearly that same, supplied with Mineral remedies, as we have it.

A physician may enclose money in a letter to the publisher of a newspaper, to pay the subscription of a third person, and frank the letter, if written by himself.

Advertisements sent in by persons having no account at this office, must be paid for in advance, unless some one known and responsible to the editor, will be responsible for the amount.

Advertisements will be continued until forbidden, and charged accordingly, unless the number of insertions be specified.

The author would take this opportunity to inform many of those who are afflicted with Chronic diseases (stomach, liver, and wind Calomel) that he has kept up a medical practice, and has had success in the treatment of these diseases, by the use of Mineral remedies, and has now, after more than eight years, the vegetable practice in full view, and the results are far superior to those of the former.

He has now, however, given up the practice of medicine, and has turned his attention to the study of the human body, and the organs of life, and has now, in his opinion, a better knowledge of the human frame, and the organs of life, than any physician in America.

Persons wishing to become Agents for the sale of Dr. B.'s medicine, will apply to Haskins & Palmer, Woodstock; Wm. Hewes, Chelsea, and E. H. Prentiss, Mephi, who are authorized General Agents.

Mr. Avery's were nearly blasted, till I took his medicines. I date the only time in my whole practice, that thought I was born, and fully justified it, and deserved it, and deserved it. *Mineral Practice.* I should have been numbered ere this with the dead. I gained rapidly in restoring my health after taking the medicine a few weeks, and I was cured of the disease about four months after taking his medicines. I sincerely hope all who are similarly afflicted will try this Medicine, and I believe that none would have cause to regret it.

RUTH AVERY.

Sherburne, August 22, 1837.

This certifies that we the subscribers, neighbors and friends of Mrs. Avery, enclose in the above certificate, and we recommend the use of these medicines from a known and acknowledged authority, as follows:

**SHERRINGELE**—Jeremiah Avery, Charles Shedd, Melinda W. Shedd, Roswell Adams, Mary Adams, John Eastman, Louis Eastman, Louise Eastman 2d, Zephra Fuller, Anna F. Fuller, Mrs. Eastman, Mary Taylor, Mrs. Taylor, Dr. Hutchinson, Jr., Dr. Eastman.

**PITTSFIELD**—John Fuller, Seth Gibbs, Caroline Gibbs, STOCKBRIDGE—Capt. A. Perkins, Maj. O. Perkins, Asa Abbott, Col. O. Durkee, T. O. Belcher.

**LETHbridge**—Capt. S. Adams, Dr. Wm. Lethbridge.

The following are presented upon an experimental knowledge of their efficacy: no one can use them without being benefited. Directions accompany each article.

**Fever Drops**—for opening the pores of the skin and causing perspiration. Barks, calms, &c. Price 25 cents.

**Syrup for dyspepsia**—This is one of the best medicines for the summer complaints of children, now before the public, as well as for the inflammation of the bowels and stomach, heartburn, nausea and vomiting, sickness, cholera morbus, &c. Price cents.

**Diuretic Drops**—for all diseases of the kidney and the urinary canals. Price 31 1/2 cents.

**Rheumatic Liniment**—for rheumatism, rheumatism, sprains, &c. Price 35 cents.

**Black Salve**—for ulcers, fever sores, sores, burns, cuts, &c. Price 25 cents.

**Port Kent**—Hurry! our Captain comes,

**Advice gratis.** —

## THOMSONIAN INFIRMARY,

AND  
INSANE HOSPITAL,  
EAST RANDOLPH, VT.

D. J. SMITH,

THIS certifies his grateful acknowledgements to his friends and the end pell-mell public, for the liberal patronage bestowed on his establishment for more than three years past, and his hearty thanks to all who have contributed to it every year, until it is known that he does double the business of any other physician in Randolph; and the board of assessors for 10-20-30-40 of them an Mr. D.—have assessed him \$40 for his medical faculty—and himself and the rest of the regulars only to \$16 to \$20 each.—The physicians, who are placed upon the skill of Dr. Smith in his own house—even by those who are most inclined to oppose it.

The THOMSONIAN SYSTEM, according to an estimate made by Dr. Waterhouse, formerly a Lecturer in the Medical Department of Harvard University, is much more effective in the removal of disease, than any other system, and is known to be of great service in removing that which is most injurious to health.
